

Remarks

The specification is amended herein to update the priority claim for this application and to include the abstract as a separate sheet in accordance 37 CFR 1.72. The claims are inclusive of any amendments made under Chapter II of the PCT application, and have been further amended to remove all instances of multiple dependency, in particular, additional claims have been added herewith to reflect a restating of formerly multiple dependent claims into separate dependent claims. No new matter is believed to be added.

Respectfully submitted,

ABSTRACT

Compositions for cancer therapy comprising two or more saponins and/or sapogenins are provided. The compositions have enhanced anti-cancer activity when compared to each individual component alone. Also provided are pharmaceutical and non-pharmaceutical formulations comprising the compositions for use in the treatment of mammalian subjects having cancer, pharmaceutical kits comprising such compositions or formulations.
